A BIG CLASS STARTS

SHORT COURSE IN HOME MAKING PROVES POPULAR.

FINE TALKS FIRST DAY

Miss Anthony, Mr. Sheppard and Miss Day Had Interesting and Instructive Facts to Impart.

The short course in home making opened at the Normal Thursday afternoon with an excellent lecture on "Food Sanitation" by Miss Hettie M. Anthony of the Normal home economics department. Miss Anthony dwelt on the importance of cleanliness of the food materials. According to Miss Anthony good food affects the morality, intellect and social standards of the consumer.

"Take time and care in the selection of your foodstuffs as the farmer does in the selection of his cattle, seed corn and other farm products," said the speaker. "This label 'Guaranteed by the pure food and drug act' means very little," warned Miss Anthony. "Beware of the imported canned goods. A single can of imported peas contains enough copper to plate an ordinary kitchen knife. The American brands contain little or no copper."

Miss Anthony gave an innumerable number of important and interesting facts concerning the care and selection of foods.

She was followed by Mr. Frank Sheppard of the Normal manual training department, who talked on "Manual Training in the Home." Mr. Sheppard told the class that a number of people get the wrong idea of manual training. It is often thought that manual training includes only bench work. Of course, such is not the case, as it includes brass work, hand work and a number of other minor phases, yet each of considerable importance in itself. "The child should be taught manual training in the home," Mr. Sheppard says. "Let the children start in at an early stage making pasteboard furniture and other little articles which will enable them to learn measurements and to use their hands as well as their eyes and brains." Mr. Sheppard displayed a number of articles of furniture made by members of his classes in bench work. One piece of work, a taboret, made by Miss Verdie Miller, was an especially fine bit of workmanship.

The afternoon session closed with Miss Harriet Day's discussion of "Household Decorations." "More homes are spoiled with too much money than with too little," is Miss Day's idea concerning some of the overdecorated and gaudily furnished houses. The color schemes of rooms often have a bad effect on people of a nervous disposition, therefore exercise care in the selection of your colors. Watch nature for your colors. Miss Day illustrated her discussion with samples of wall paper and rugs.

Miss Amy Louise Daniels of the University of Missouri was the chief speaker at the short course Friday morning. The class met in the Normal auditorium and the big hall was pretty well filled. Miss Daniels' topic of discussion was "Cleanliness." The speaker remarked that after reaching Maryville and having seen considerable of the city, that she thought it was hardly necessary to talk on cleanliness. However, Miss Daniels gave some excellent advice and instruction relating to this all-important subject.

The course will close this afternoon with a talk by Miss Daniels at 3:30 o'clock on "Problems of Food."

The model cottage, in connection with the course, is open for public inspection from 4 to 6 o'clock today. (Continued on Page 2)

GILLAM RETURNS

From a Trip to St. Louis and Chicago in Regard to Bond Issue for City.

S. G. Gillam, a member of the board of public works, returned Friday morning from a few days' trip to St. Louis and Chicago. He was accompanied on the trip by R. L. McDougal, another member of the board, who will return Saturday morning. Mr. Gillam reports that it looks favorable for the sale of the water bonds. No report will be made to the council until some time next week.

The board will meet in a few days and consider the latest offer of Mr. Street. However, it is thought that it will not be accepted, as the price, according to the engineers, is still too high. The board wishes to settle the matter one way or the other in the next few weeks.

NAILS MEND BONES

DR. MURPHY OF CHICAGO DESCRIBES THE OPERATION.

TO TREAT CARL WRIGHT

Famous Surgeon Tells of Various Cases in Which the Human Anatomy Has Been Patched Up.

An account of how broken bones of a living human being may be fastened together by wire nails, much as one piece of studding is nailed to another by a carpenter, is contributed to the current issue of the Journal of the American Medical Association by Dr. John B. Murphy of Chicago.

Dr. Murphy is the one that says that Carl Wright can be restored back to health, and has prescribed the treatment for him for a year and half in case the people respond to help in this worthy cause of saving a young boy's life. Dr. Murphy was the one that also performed an operation on Dow Cook, a son of Prof. and Mrs. T. H. Cook of this city, and who is now enjoying good health.

Another operation which Dr. Murphy describes in the article is one in which he substituted a structure of metal for half a jawbone. His histories of operations performed are illustrated by X-ray photographs showing just how the nails were driven or the other forms of metal put in place. The operation on the jaw was made necessary by a tumor, a "giant cell sarcoma," which attacked the angle of the right half of the lower jawbone. The patient was a young girl. Dr. Murphy removed the right half of the bone from the head to the front teeth and inserted in its place a silver wire model, with metal head, of the same size and shape.

Substitute of Silver Wire.

The metal substitute was of silver wire in the pattern of the cantilever. The head was sewed into the capsule occupied by the original head of bone and the soft tissues were quilted through the wire framework of the substitute jawbone.

The front end of the framework was inserted into the remaining left half of the lower jawbone for a distance of one-third of an inch and blocked to prevent its further entrance. The framework was purposely made a little longer than the left jawbone because that was still growing. After six weeks the wounds healed and the framework became completely imbedded.

Wire Nails United Bones.

Another case, one in which wire nails were used to unite fractured bones until they would grow together was that of a young girl who had a deformed foot and ankle, the result of an old "Pott's fracture." She could walk, but one leg was visibly shorter than the other. The operation consisted in breaking the bones and placing them in their normal relation to each other. They were then held in place by three nails driven directly into the living bone. The result was that the bones grew together.

The symmetry of the foot and ankle was restored, so that when the girl left the hospital she stood squarely on it as on the one that never had been injured, and walked perfectly. The nails were removed seven weeks after the operation was performed, when they were no longer necessary.

Besides nails and silver wire supports, Dr. Murphy says, that "small wires or cables made up of a number of fine strands, such as phosphor-bronze wire, may be inserted for security in places where suppuration is present. These materials readily become encapsulated, notwithstanding their primary infectivity."

WEATHER PROMISE IS EXCELLENT FOR TRACK MEET.

FIRST CONTEST TONIGHT

Orchestra From St. Joseph Will Play at the Oratorical Contest to Be Held at Normal.

With the weather man's promise of a clear day, the track and field in ideal shape, all arrangements for the meet completed, and every train bringing crowds of enthusiastic students and friends, the third annual N. M. I. H. S. A. track and field meet and oratorical contest promises to surpass by far the two previous occasions.

The oratorical contest will be held in the Normal auditorium this evening at 7:30 o'clock. The winner of the essay contest will also be announced at that time, as the essays have been judged by the heads of the English departments of Amity college, Missouri Wesleyan and Park college and all papers graded. By means of the preliminary which was held this afternoon in the oratorical contest all but five of the contestants in both the boys' and girls' contests will be eliminated. The judges for the boys' contest will be Rev. C. J. Miller, Prof. T. H. Cook and Prof. W. M. Oakerson. The judges for the girls' contest will be J. C. Elder, Miss Jessie Parcher and State Superintendent W. P. Evans.

The St. Joseph Central High School orchestra arrived in the city on the noon Burlington train and will play several numbers at the oratorical contest this evening.

At 10 o'clock tomorrow morning trial heats will be held in the following events at the Normal athletic park: 100-yard dash, 220-yard dash, 120-yard high hurdles, 220-yard low hurdles, shot put, discus throw, hop, step and jump, and the standing and running broad jump. The track meet proper will begin at 2 o'clock tomorrow afternoon. It is the intention of V. I. Moore, the manager of the meet, to start everything on time.

No one will be admitted to the field during the track meet except contestants in uniform and those wearing official badges.

DEATH OF QUITMAN WOMAN.

Mrs. L. B. Young Died Friday Morning of an Illness of Pneumonia Since Monday.

Mrs. L. B. Young, aged about 60 years, died at 10:15 o'clock Friday morning at her home in Quitman. The time for the funeral services has not yet been arranged. Mrs. Young had been a member of the Christian church for many years and the services will be conducted by Rev. S. D. Harlan of Maitland. She is survived by three sons, Curtis Young, who is in the west; L. D. Young of Quitman, foreman of the Bilby ranch, and R. B. Young, a liveryman of Quitman.

TEACHERS' SESSION

SUPT. E. U. GRAFF OF OMAHA ON THE FIRST PROGRAM.

THE ATTENDANCE IS GOOD

Mr. Vegelesang and Mrs. Early From Daviess and Worth Counties Had Papers Friday.

The first session of the Northwest Missouri Teachers' association met at the Normal Thursday evening and enjoyed a very instructive lecture by Mr. E. U. Graff, superintendent of instruction of Omaha, Neb. As Mr. Graff was unable to get here until a little after 9 o'clock, the Normal Quartet gave a number of selections and received several encores. Professor G. H. Colbert then made a short talk on the educational problems which confront the people of today and briefly outlined the origin and purpose of the teachers' associations.

Although Mr. Graff was placed under some disadvantage by having to speak immediately upon coming from the train, he handled his subject, "Education in the Twentieth Century," in a masterly fashion, and presented some very interesting phases of the question which is now being discussed. Mr. Graff says "that we, as a nation, are interested in education more than any one subject. Not only have we placed the very best educational advantages before the present generation, but we have compelled them by our laws to accept it. We must now shape our educational advantages to the kind of pupils to which we must impart it. The aspect of twentieth century life and education is constantly changing. One of the reasons for this is the constantly increasing immaturity of the pupils. In the days of our revolutionary fathers a youth of 17 was considered a man and a girl was considered mature at about the same age. This age has now been put forward some five or six years. One of the chief reasons for this is the transfer of productive industries from the home to the factory. Modern conveniences have robbed the child of today of the opportunities of doing for themselves. Science and organization are two more very important factors, which retard the maturity of our young people."

"It is, too, a very different proposition to try to teach a boy who, outside of his school hours, drives a 60-horse power automobile, than it was to teach a boy who spent his leisure time guiding the handles of a plow. The age is one of externity, superficiality and display. The cry we now hear is for a more practical education. Let our task be to, as best we can, fit our education to our pupils."

Friday's session of the Teachers' association opened at 9 o'clock this morning with a good attendance. After several numbers by the Normal

MR. SOWERS INJURED.

While Blasting at Postoffice a Piece of Clay Hit Him Over the Heart.

H. M. Sowers, who was watching workmen blast the concrete wall on the postoffice site, sustained an injury when a piece of hard clay hit him above the heart. He fainted soon after and was taken to his home by Will Montgomery in his automobile. Dr. L. E. Dean attended and reported his condition as very good. While the blow was a hard one, it is not serious.

DIED FROM GUNSHOT

JACOB MILLER FATALLY INJURED AT TARGET PRACTICE.

LIVED NEAR ALANTHUS

Father, Mother, Two Brothers and Two Sisters Survive—Funeral to Be Sunday at Stanberry.

Jacob Miller, the 18-year-old son of Mr. and Mrs. Lee Miller, living two and a half miles southeast of Alantus, east of Ravenwood, was accidentally shot and killed Thursday afternoon about 4 o'clock.

In company with his brothers and some boys of the neighborhood and a cousin, Edward Miller of Covington, Okla., who is visiting at the Miller home, young Miller was at target practice in a field a half mile east of the residence. The boys were throwing shells up in the air and shooting at them when a gun was accidentally discharged and the young man received the contents of a shot in the back just as he stooped to pick up a shell from the ground. He did not die instantly, but lived only a few minutes. As the boys went to him to render assistance he said:

"I am shot in the back. Do not move me."

He lost consciousness immediately and died before help could reach him.

The funeral services will be held at 11 o'clock Sunday morning at the home, conducted by Rev. Jones of Stanberry. Interment will take place in the Jennings cemetery, one mile and a half east of Alantus.

The deceased young man was 18 years old January 5, and is the youngest son of the family. He is survived by two brothers, Robert and Fred Miller, and a sister, Miss Minnie Miller, aged 16, and a married sister, Mamie, who is the wife of Jesse Phillips of Conception Junction.

Will Aldrich, an Elmo lumberman, was in Maryville Friday.

TAFT MEN BOLTED

TWO SETS OF DELEGATES SENT TO REPUBLICAN CONVENTION.

BITTERNESS IN EVIDENCE

Steam Roller Methods Provoked Taft Men to Revolt—Hadley Heads Big Fight.

According to a dispatch this afternoon two sets of delegates were selected to the Republican national convention at Chicago, to be held in June.

The first session of the convention convened at 9 o'clock Thursday evening and lasted until 6:30 o'clock Friday morning. The Roosevelt men were in complete control of the convention and used the steam roller over the Taft men. Much bitterness was shown during the discussion.

The convention, controlled by the Roosevelt men, selected eight delegates at large with a half vote each. They were Governor Hadley, Jesse Tollerton, Walter S. Dickey, Fred Essen, Hugh McIndoe, John D. McNeely, John W. Pippin and Alfred H. Speer. C. D. Morris of St. Joseph was selected as a delegate, but when they instructed him to vote for Roosevelt he withdrew his name. Thomas K. Nedringhaus of St. Louis was selected as national committeeman.

The Taft men had no show in the convention whatever, and the steam roller was so much in evidence that they decided to hold a convention. One was held in a hotel in St. Louis at 10 o'clock this morning, and former Senator Eads was the chairman. They selected as delegates at large to the Chicago convention Joseph E. Black, John A. Duncan, John J. Lahiz and Harry D. Train.

THE PROGRAM FOR CONCERT.

KNOWN AS JAMES B. CLARK.

James Beauchamp (pronounced Beecham) Clark, was known in his early life as James B. Clark, says Frank Parker Stockbridge in the May World's Work. Soon after leaving law school he found that a J. B. Clark was getting mail at nearly every post-office in the country. Sometimes they got his letters and sent them back to the writers.

"I tried lopping off the James and traveling as plain 'Beauchamp Clark,' but my friends insisted upon pronouncing it 'Bo-champ,' or abbreviated it to 'Bo Clark,'" said the speaker, telling me how he made the change. "I thought I would save them trouble by abbreviating it myself, and began to write it 'Champ Clark.' It has been a good asset. It is short enough to be usually printed in full. Look at any list of 'those present' in the papers. Others are mentioned by surnames only, but my name is printed 'Champ Clark.'" From this it may be inferred that the speaker is alive to the value of advertising.

CLEAN UP!

Your neighbors are estimating your habits of cleanliness by the outside appearance of your premises. Are you satisfied with your reputation?

A dirty neighborhood is a dangerous neighborhood. If you live in such a neighborhood and cannot clean it up, move away.

Property values are enhanced by cleanliness of surroundings. A wise man will not rent—much less buy—in a dirty neighborhood.

Co-operate with your neighbor to clean up that dirty lot which lies between your home and his.

TEACHERS' SESSION

(Continued from Page 1)

Glee club, Mr. I. J. Vogelgesang, superintendent of schools of Daviess county read a paper on "Consolidation—Why and How?" Following Mr. Vogelgesang's paper the subject was given over to general discussion. Mrs. Cora Early, superintendent of Worth county, discussed "The School as a Social Center," after which there was a general discussion. Mrs. Early emphasized the importance of parents' and mothers' meetings in order that the teacher may come in closer touch with the parents and learn the home conditions of the pupil. Both the association and the class in home making met in the auditorium to listen to Miss Daniels of the University of Missouri on the subject of "Household Sanitation." A summary of the lecture is given in another part of this edition.

At the afternoon session of the teachers' meeting at the Normal Frederick Neudorff, president of the Mercantile association of St. Joseph, delivered an address to the teachers on "What Should the Boy Learn at School—Merchant's View."

George P. Bellows followed Mr. Neudorff and talked of the subject from a farmer's standpoint. The meeting of the association will close this afternoon with the election of officers.

Elm Grove School Closes.

Miss Stella Payne, who has been teaching the Elm Grove school, north of the city, went to her home at Earlham, Ia., Friday. The pupils of this school gave a nice program of recitations, exercises, dialogues and songs Thursday afternoon before the patrons of the school, who surprised the teacher and her pupils at the noon hour by coming with well filled baskets and spread a regular banquet. After the program Miss Payne awarded the prizes she had offered to those who were neither absent or tardy during the year. Sadie Ale of the fifth grade and Gertrude Garrett of the first grade were the winners. Another prize offered for the best spelling grade since Christmas was won by Harry Morse, a second grade boy, whose average was 98. Helen Kemp had won the prize for the best spelling grade for the term closing at Christmas. She is a fourth grade pupil and her average was 99. She was a close second to the winner of the second term offer, her grade being 97.

Stylish Dresses for Children

Children's dresses which have a style and individuality of their own are not easy to find—but at this store you will find just that sort because we have paid particular attention to those points.

Children appreciate the jaunty styles shown in these dresses—they want to wear them right home. The materials are the best quality and they are strongly sewn in order to stand hard wear.

Give the children an opportunity to look through this display, the largest showing we have ever had; we shall be glad to show them.

WHITE DRESSES of flaxon, india linon and lawn, trimmed with dainty lace, insertion, embroideries and fine tucks. Priced from 75c to \$6.50.

COLORED DRESSES, gingham, percale and linen dresses trimmed in contrasting colors, with buttons to match, high or low necks, in solid colors, checks, plaids and stripes. Priced from 65c to \$3.50.

FOR FALLING HAIR.

You Cannot Lose When You Use This Remedy.

"We promise you if your hair is falling out, and you have not let it go too far, you can prevent baldness and get a new growth of hair, if you will use Rexall '93' Hair Tonic, with persistence and regularity, for a reasonable length of time.

It is a scientific, cleansing, antiseptic, germicidal preparation. It destroys microbes, stimulates good circulation around the hair roots, and thus promotes hair nourishment, removes dandruff and restores hair health. It is as pleasant to use as pure water, and is delicately perfumed. It is a real toilet necessity.

We want you to try Rexall '93' Hair Tonic with our promise that it will cost you nothing unless you are perfectly satisfied with its use. It comes in two sizes, prices 50c. and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store. The Orear-Henry Drug Co., 113 North Main street.

Dr. Charles Torrance of Gibbons, Neb., who was operated upon at St. Francis hospital Thursday for appendicitis, is getting along nicely. Mr. Torrance had come to Maryville for a visit with his mother, Mrs. Hosea Torrance, when he was taken ill.

ONLY DEATH CAN REMOVE HIM.

If Roosevelt Gets Third Term, so Says President Taft.

Springfield, Mass., April 25.—In a voice choking with emotion, Taft concluded his speech with a solemn warning to the people of the United States that in Roosevelt they were in "danger of a dictator who, once he received a third term, would cling like a leech to the White House and never leave it until death removed him."

"I am sorry to say it," said President Taft, "but Mr. Roosevelt is a man of strong personality. He is a leader of men, and is a man of much strength of purpose, and has so little regard for the constitution, of legal procedure and the courts that he is not to be trusted with the presidency. I am sorry to say it, but I believe it in my soul, and must state my convictions."

Clean-Up Day for the Junction.
 Burlington Junction is going to have a clean-up day on next Tuesday.

To Give Concert.

C. Wilson. They also took in some of the festivities now in progress at the State Normal.

Guilford School Closes.

Miss Leatha Patterson closes a successful term of school April 24. A bountiful dinner was served, after which an amusing and interesting program was given by the pupils. Then came the field exercises. Those who received prizes were Gladys Graves, Clyde and Vern Griffith. There were fifty friends and patrons present who greatly enjoyed the day.

Death of 7-Year-Old Boy.

Earl Logan, the 7-year-old son of Mr. and Mrs. Paul Logan, living three and a half miles southeast of Skidmore, died rather suddenly Friday morning about 8 o'clock. He had been sick but a short time of stomach trouble. Mr. and Mrs. Logan have three other children. The funeral services will be held Sunday, but the hour has not as yet been fixed. Interment in Groves cemetery.

To parties having Campbell furnaces in their houses in this city needing attention of any kind we recommend Mr. Wm. Armstrong of the Armstrong foundry, who is familiar with the construction of our furnaces and will give you satisfaction.

They are Miss Mary Richey and Miss Mabel Miller, teachers in the Platte City high school; Mrs. A. M. Ford, Miss Bessie Newby, Miss Virginia Hullett, Elbert Elgin and Richard Throckmorton. The other members of the Platte City party who arrived Friday noon are Col. W. T. Jenkins, editor of the Platte City Landmark; Superintendent Ross of the schools, Irvin Willis, Edgar Miller, Dick Miller, Danie Stamper, Glen Baker, John and Will Skillman, Platte DeMaster, John Searcy, William Wells and Lloyd Hoskins.

Misses Mabel and Elsie Williams of Bolckow arrived in the city Friday. Miss Elsie will be one of the oratorical contestants.

Mrs. Frank Wakefield and two children of Savannah arrived Friday and will visit until Saturday evening at the home of Mr. and Mrs. J. F. Roelofson.

Final Plea for Richeson.

Boston, April 26.—A final attempt to save the life of Rev. V. T. Richeson, convicted of the murder of Avis Linnell, a choir singer, was made today, when the ex-pastor's counsel, William A. Morse and John L. Lee, personally pleaded the murderer's case before Governor Foss. The attorneys hoped to persuade the governor to refer the petition for the commutation of the minister's death sentence to the governor's council.

Farm College is Crowded.

Columbia, Mo., April 26.—The enrollment of students in the college of agriculture now is 794, almost four times that of four years ago. The record shows a decided increase in interest in agricultural education in this state. The facilities of the college are taxed to the utmost.

A MEASURE OF MERIT.

Maryville Citizens Should Weigh Well This Evidence.

Proof of merit lies in the evidence. Convincing evidence in Maryville. Is not the testimony of strangers. But the endorsement of Maryville people. That's the kind of proof given here—The statement of a Maryville citizen. J. A. Murphy, 805 East Fourth street, Maryville, Mo., says: "I suffered considerably from kidney trouble and lumbago. I got up in the morning so stiff and lame with such a dull aching across my loins that I could hardly do my work. I suffered a great deal from kidney trouble, whenever I caught cold and the kidney secretions were dark and filled with sediment. My health failed and I was miserable when I read about Doan's Kidney Pills. I got a box of this remedy at Love's drug store (now Love & Gaugh's drug store), and it went at once to the seat of my trouble and corrected it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

YOUR GRAY HAIRS QUICKLY VANISH

A Harmless Remedy, Made from Garden Sage, Restores Color to Gray Hair.

A feeling of sadness accompanies the discovery of the first gray hairs which unfortunately are looked upon as heralds of advancing age. Gray hair, however handsome it may be, makes a person look old. We all know the advantages of being young. Aside from the good impression a youthful appearance makes on others, simply knowing that you are "looking fit" gives one courage to undertake and accomplish things. So on account of gray hairs, when a simple remedy will give your hair youthful color and beauty in a few days' time? Most people know that common garden sage acts as a color restorer and scalp tonic as well. Our grandmothers used a "Sage Tea" for keeping their hair dark, soft and luxuriant. In Wyeth's Sage and Sulphur Hair Remedy we have an ideal preparation of Sage, combined with Sulphur and other valuable remedies for dandruff, itching scalp and thin, weak hair that is split at the ends or constantly coming out. A few applications of this valuable remedy will bring back the color, and in a short time it will remove every trace of dandruff and greatly improve the growth and appearance of the hair.

Get a fifty cent bottle from your druggist today, and notice the difference in your hair after a few days' treatment. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented. Special Agent, Koch Pharmacy.

"MONEY TRUST" INQUIRY CERTAIN

House Empowers Banking Committee to Investigate.

WILL GO INTO EVERY DETAIL

Pujo Resolution Passed by Vote of 241 to 15—Attorneys Will Arrange for Immediate Opening.

Washington, April 26.—The house empowered its banking and currency committee to make a sweeping investigation of the financial interests of the country; their relations to industrial, transportation and banking interests; and the extent to which their inter-relations may constitute a "money trust."

By a vote of 241 to 15, the Pujo resolution, embracing practically all the allegations and authority of the original Henry "money trust" resolution, was passed by the house.

Those who voted against the resolution were:

Republicans—Austin, Tennessee; Calder, New York; Cannon, Illinois; Dalzell, Pennsylvania; Draper, New York; Henry, Higgins and Tilson, Connecticut; Howell, Utah; Mahby, New York, and Sulloway, New Hampshire.

Democrats—Representatives Bradley, Georgia; Bulkeley and Whitacre, Ohio; Evans, Illinois.

Attorneys Notified.

Representative Pujo, chairman of the banking and currency committee, announced late in the day that he had telegraphed to Samuel Untermyer of New York and Edgar H. Farrar of New Orleans, the attorneys who are to conduct the investigation, asking them to meet the committee at once. The attorneys will be asked to arrange for an opening of the "money trust" inquiry.

Representative Mann charged during the debate that "Mr. Untermyer of New York is proposing to milk the money powers and the corporations that he is seeking to investigate."

Mann Makes Charges.

"This is one of those 'come and see me' resolutions," said Mr. Mann. "We have an important political campaign ahead of us. There is need for money. They say to a corporation, 'come and show us everything you have ever done or else put up the stuff.'"

"They say: 'If you dare make a movement in favor of our political opponents, we will drag you up before the bar of our committee.' No such gross abuse was ever in the history of the government."

Chairman Henry of the rules committee denied Mr. Mann's charges. He said the house had already passed a presidential campaign fund publicity bill, which would prevent any "milking of the corporations."

Chairman Pujo, of the banking and currency committee, said that wider powers of investigation were demanded by the lawyers who have been engaged by the committee.

PLAN THIRD HAGUE CONFERENCE

American Society of International Law Devotes Entire Session to Consideration of Program.

Washington, April 26.—The sixth annual meeting of the American Society of International Law opened last evening in the Hall of the Americas of the Pan-American Union. The society was organized at Lake Mohonk, New York, Jan. 13, 1906, and its object is "to foster the study of international law and promote the establishment of international relations on the basis of law and justice." This year the society decided to devote its entire session to the consideration of the program, organization and procedure for the third Hague conference.

The Hague conference of 1907 recommended to the powers the holding of a third peace conference which might take place within a period similar to that which elapsed between the first and second conference—eight years—and attention was drawn to the necessity of preparing the labors of the third conference sufficiently in advance to have its deliberations "follow their course with the requisite authority and speed." The American Society of International Law is the first organization to take up this work.

The session was opened by an address by Senator Root, president of the society. Hon. Pasquale Fiore, senator of Italy and professor of international law in the University of Naples, delivered an address on "Some Considerations on the Past, Present and Future of International Law," and Oscar S. Strauss, formerly secretary of commerce and labor and American ambassador to Turkey, spoke on "The American Diplomacy of Humanity."

Today the sessions will be resumed by the reading of general papers on the program of the third Hague conference by Alejandro Alvarez, jurist-consult of the ministry of foreign affairs of Chile; Joaquin D. Casasus, formerly Mexican ambassador to the United States; Luis Anderson, formerly minister of foreign affairs of Costa Rica, and James Brown Scott, technical delegate of the United States to the second peace conference.

STOPS SCALP ITCH.

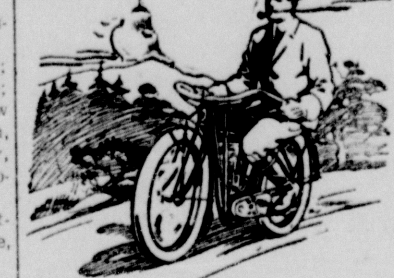

Dandruff and Every Form of Scalp Disease Cured Quick by Zemo.

It is simply wonderful how Zemo goes after dandruff. You rub a little of it in with tips of the fingers. It gets right down into the glands, stimulates them, stops the itch, and makes the head feel fine. No, it isn't sticky! Zemo is a fine, clear, vanishing liquid. You don't have to even wash your hands after using Zemo. And what a wonder it is for eczema, rash, pimples and all skin afflictions. A 25-cent trial bottle at Love & Gaugh's drug store is guaranteed to stop any skin irritation.

Zemo is prepared by E. W. Rose Medicine Co., St. Louis, Mo., and is regularly sold by druggists at \$1 a bottle. But to prove what it will do at trifling expense, Zemo is now put up in 25-cent trial bottles.

A BIG CLASS STARTS

SHORT COURSE IN HOME MAKING PROVES POPULAR.

FINE TALKS FIRST DAY

Miss Anthony, Mr. Sheppard and Miss Day Had Interesting and Instructive Facts to Impart.

The short course in home making opened at the Normal Thursday afternoon with an excellent lecture on "Food Sanitation" by Miss Hettie M. Anthony of the Normal home economics department. Miss Anthony dwelt on the importance of cleanliness of the food materials. According to Miss Anthony good food affects the morality, intellect and social standards of the consumer.

"Take time and care in the selection of your foodstuffs as the farmer does in the selection of his cattle, seed corn and other farm products," said the speaker. "This label 'Guaranteed by the pure food and drug act' means very little," warned Miss Anthony. "Beware of the imported canned goods. A single can of imported peas contains enough copper to plate an ordinary kitchen knife. The American brands contain little or no copper."

Miss Anthony gave an innumerable number of important and interesting facts concerning the care and selection of foods.

She was followed by Mr. Frank Sheppard of the Normal manual training department, who talked on "Manual Training in the Home." Mr. Sheppard told the class that a number of people get the wrong idea of manual training. It is often thought that manual training includes only bench work. Of course, such is not the case, as it includes brass work, hand work and a number of other minor phases, yet each of considerable importance in itself. "The child should be taught manual training in the home," Mr. Sheppard says. "Let the children start in at an early stage making pasteboard furniture and other little articles which will enable them to learn measurements and to use their hands as well as their eyes and brains." Mr. Sheppard displayed a number of articles of furniture made by members of his classes in bench work. One piece of work, a taboret, made by Miss Verdie Miller, was an especially fine bit of workmanship.

The afternoon session closed with Miss Harriet Day's discussion of "Household Decorations." "More homes are spoiled with too much money than with too little," is Miss Day's idea concerning some of the overdecorated and gaudily furnished houses. The color schemes of rooms often have a bad effect on people of a nervous disposition, therefore exercise care in the selection of your colors. Watch nature for your colors. Miss Day illustrated her discussion with samples of wall paper and rugs.

Miss Amy Louise Daniels of the University of Missouri was the chief speaker at the short course Friday morning. The class met in the Normal auditorium and the big hall was pretty well filled. Miss Daniels' topic of discussion was "Cleanliness." The speaker remarked that after reaching Maryville and having seen considerable of the city, that she thought it was hardly necessary to talk on cleanliness. However, Miss Daniels gave some excellent advice and instruction relating to this all-important subject.

The course will close this afternoon with a talk by Miss Daniels at 3:30 o'clock on "Problems of Food."

The model cottage, in connection with the course, is open for public inspection from 4 to 6 o'clock today. (Continued on Page 2)

GILLAM RETURNS

From a Trip to St. Louis and Chicago in Regard to Bond Issue for City.

S. G. Gillam, a member of the board of public works, returned Friday morning from a few days' trip to St. Louis and Chicago. He was accompanied on the trip by R. L. McDougal, another member of the board, who will return Saturday morning. Mr. Gillam reports that it looks favorable for the sale of the water bonds. No report will be made to the council until some time next week.

The board will meet in a few days and consider the latest offer of Mr. Street. However, it is thought that it will not be accepted, as the price, according to the engineers, is still too high. The board wishes to settle the matter one way or the other in the next few weeks.

NAILS MEND BONES

DR. MURPHY OF CHICAGO DESCRIBES THE OPERATION.

TO TREAT CARL WRIGHT

Famous Surgeon Tells of Various Cases in Which the Human Anatomy Has Been Patched Up.

An account of how broken bones of a living human being may be fastened together by wire nails, much as one piece of studding is nailed to another by a carpenter, is contributed to the current issue of the Journal of the American Medical Association by Dr. John B. Murphy of Chicago.

Dr. Murphy is the one that says that Carl Wright can be restored back to health, and has prescribed the treatment for him for a year and half in case the people respond to help in this worthy cause of saving a young boy's life. Dr. Murphy was the one that also performed an operation on Dow Cook, a son of Prof. and Mrs. T. H. Cook of this city, and who is now enjoying good health.

Another operation which Dr. Murphy describes in the article is one in which he substituted a structure of metal for half a jawbone. His histories of operations performed are illustrated by X-ray photographs showing just how the nails were driven or the other forms of metal put in place. The operation on the jaw was made necessary by a tumor, a "giant cell sarcoma," which attacked the angle of the right half of the lower jawbone. The patient was a young girl. Dr. Murphy removed the right half of the bone from the head to the front teeth and inserted in its place a silver wire model, with metal head, of the same size and shape.

Substitute of Silver Wire.
The metal substitute was of silver wire in the pattern of the cantilever. The head was sewed into the capsule occupied by the original head of bone and the soft tissues were quilted through the wire framework of the substitute jawbone.

The front end of the framework was inserted into the remaining left half of the lower jawbone for a distance of one-third of an inch and blocked to prevent its further entrance. The framework was purposely made a little longer than the left jawbone because that was still growing. After six weeks the wounds healed and the framework became completely imbedded.

Wire Nails United Bones.
Another case, one in which wire nails were used to unite fractured bones until they would grow together was that of a young girl who had a deformed foot and ankle, the result of an old "Pott's fracture." She could walk, but one leg was visibly shorter than the other. The operation consisted in breaking the bones and placing them in their normal relation to each other. They were then held in place by three nails driven directly into the living bone. The result was that the bones grew together.

The symmetry of the foot and ankle was restored, so that when the girl left the hospital she stood squarely on it as on the one that never had been injured, and walked perfectly. The nails were removed seven weeks after the operation was performed, when they were no longer necessary.

Besides nails and silver wire supports, Dr. Murphy says, that "small wires or cables made up of a number of fine strands, such as phosphor-bronze wire, may be inserted for security in places where suppuration is present. These materials readily become encapsulated, notwithstanding their primary infectivity."

WEATHER PROMISE IS EXCELLENT FOR TRACK MEET.

FIRST CONTEST TONIGHT

Orchestra From St. Joseph Will Play at the Oratorical Contest to Be Held at Normal.

With the weather man's promise of a clear day, the track and field in ideal shape, all arrangements for the meet completed, and every train bringing crowds of enthusiastic students and friends, the third annual N. M. I. H. S. A. track and field meet and oratorical contest promises to surpass by far the two previous occasions.

The oratorical contest will be held in the Normal auditorium this evening at 7:30 o'clock. The winner of the essay contest will also be announced at that time, as the essays have been judged by the heads of the English departments of Anny college, Missouri Wesleyan and Park college and all papers graded. By means of the preliminary which was held this afternoon in the oratorical contest all but five of the contestants in both the boys' and girls' contests will be eliminated. The judges for the boys' contest will be Rev. C. J. Miller, Prof. T. H. Cook and Prof. W. M. Oakerson. The judges for the girls' contest will be J. C. Elder, Miss Jessie Parcher and State Superintendent W. P. Evans.

The St. Joseph Central High School orchestra arrived in the city on the noon Burlington train and will play several numbers at the oratorical contest this evening.

At 10 o'clock tomorrow morning trial heats will be held in the following events at the Normal athletic park: 100-yard dash, 220-yard dash, 120-yard high hurdles, 220-yard low hurdles, shot put, discus throw, hop, step and jump, and the standing and running broad jump. The track meet proper will begin at 2 o'clock tomorrow afternoon. It is the intention of V. I. Moore, the manager of the meet, to start everything on time.

No one will be admitted to the field during the track meet except contestants in uniform and those wearing official badges.

DEATH OF QUITMAN WOMAN.

Mrs. L. B. Young Died Friday Morning of an Illness of Pneumonia Since Monday.

Mrs. L. B. Young, aged about 60 years, died at 10:15 o'clock Friday morning at her home in Quitman. The time for the funeral services has not yet been arranged. Mrs. Young had been a member of the Christian church for many years and the services will be conducted by Rev. S. D. Harlan of Maitland. She is survived by three sons, Curtis Young, who is in the west; L. D. Young of Quitman, foreman of the Bibby ranch, and R. B. Young, a livewoman of Quitman.

TEACHERS' SESSION

SUPP. E. U. GRAFF OF OMAHA ON THE FIRST PROGRAM.

THE ATTENDANCE IS GOOD

Mr. Voegelsgang and Mrs. Early From Daviess and Worth Counties Had Papers Friday.

The first session of the Northwest Missouri Teachers' association met at the Normal Thursday evening and enjoyed a very instructive lecture by Mr. E. U. Graff, superintendent of instruction of Omaha, Neb. As Mr. Graff was unable to get here until a little after 9 o'clock, the Normal Quartet gave a number of selections and received several encores. Professor G. H. Colbert then made a short talk on the educational problems which confront the people of today and briefly outlined the origin and purpose of the teachers' associations.

Although Mr. Graff was placed under some disadvantage by having to speak immediately upon coming from the train, he handled his subject, "Education in the Twentieth Century," in a masterly fashion, and presented some very interesting phases of the question which is now being discussed. Mr. Graff says "that we, as a nation, are interested in education more than any one subject. Not only have we placed the very best educational advantages before the present generation, but we have compelled them by our laws to accept it. We must now shape our educational advantages to the kind of pupils to which we must impart it. The aspect of twentieth century life and education is constantly changing. One of the reasons for this is the constantly increasing immaturity of the pupils. In the days of our revolutionary fathers a youth of 17 was considered a man and a girl was considered mature at about the same age. This age has now been put forward some five or six years. One of the chief reasons for this is the transfer of productive industries from the home to the factory. Modern conveniences have robbed the child of today of the opportunities of doing for themselves. Science and organization are two more very important factors, which retard the maturity of our young people."

"It is, too, a very different proposition to try to teach a boy who, outside of his school hours, drives a 60-horse power automobile, than it was to teach a boy who spent his leisure time guiding the handles of a plow. The age is one of externity, superficiality and display. The cry we now hear is for a more practical education. Let our task be to, as best we can, fit our education to our pupils."

Friday's session of the Teachers' association opened at 9 o'clock this morning with a good attendance. After several numbers by the Normal

MR. SOWERS INJURED.

While Blasting at Postoffice a Piece of Clay Hit Him Over the Heart.

H. M. Sowers, who was watching workmen blast the concrete wall on the postoffice site, sustained an injury when a piece of hard clay hit him above the heart. He fainted soon after and was taken to his home by Will Montgomery in his automobile. Dr. L. E. Dean attended and reported his condition as very good. While the blow was a hard one, it is not serious.

DIED FROM GUNSHOT

JACOB MILLER FATALLY INJURED AT TARGET PRACTICE.

LIVED NEAR ALANTHUS

Father, Mother, Two Brothers and Two Sisters Survive—Funeral to Be Sunday at Stanberry.

Jacob Miller, the 18-year-old son of Mr. and Mrs. Lee Miller, living two and a half miles southeast of Alanthus, east of Ravenwood, was accidentally shot and killed Thursday afternoon about 4 o'clock.

In company with his brothers and some boys of the neighborhood and a cousin, Edward Miller of Covington, Okla., who is visiting at the Miller home, young Miller was at target practice in a field a half mile east of the residence. The boys were throwing shells up in the air and shooting at them when a gun was accidentally discharged and the young man received the contents of a shot in the back just as he stooped to pick up a shell from the ground. He did not die instantly, but lived only a few minutes. As the boys went to him to render assistance he said:

"I am shot in the back. Do not move me."

He lost consciousness immediately and died before help could reach him. The funeral services will be held at 11 o'clock Sunday morning at the home, conducted by Rev. Jones of Stanberry. Interment will take place in the Jennings cemetery, one mile and a half east of Alanthus.

The deceased young man was 18 years old January 5, and is the youngest son of the family. He is survived by two brothers, Robert and Fred Miller, and a sister, Miss Minnie Miller, aged 16, and a married sister, Mamie, who is the wife of Jesse Phillips of Conception Junction.

Will Aldrich, an Elmo lumberman, was in Maryville Friday.

TAFT MEN BOLTED

TWO SETS OF DELEGATES SENT TO REPUBLICAN CONVENTION.

BITTERNESS IN EVIDENCE

Steam Roller Methods Provoked Taft Men to Revolt—Hadley Heads Big Fight.

According to a dispatch this afternoon two sets of delegates were selected to the Republican national convention at Chicago, to be held in June.

The first session of the convention convened at 9 o'clock Thursday evening and lasted until 6:30 o'clock Friday morning. The Roosevelt men were in completed control of the convention and used the steam roller over the Taft men. Much bitterness was shown during the discussion.

The convention, controlled by the Roosevelt men, selected eight delegates at large with a half vote each. They were Governor Hadley, Jesse Tollerston, Walter S. Dickey, Fred Essen, Hugh McIndoe, John D. McNeeley, John W. Pippin and Alfred H. Speer. C. D. Morris of St. Joseph was selected as a delegate, but when they instructed them to vote for Roosevelt he withdrew his name. Thomas K. Neidringhaus of St. Louis was selected as national committeeman.

The Taft men had no show in the convention whatever, and the steam roller was so much in evidence that they decided to hold a convention. One was held in a hotel in St. Louis at 10 o'clock this morning, and former Senator Eads was the chairman. They selected as delegates at large to the Chicago convention Joseph E. Black, John A. Duncan, John J. Lahiz and Harry D. Train.

KNOWN AS JAMES B. CLARK.

James Beauchamp (pronounced Beecham) Clark, was known in his early life as James B. Clark, says Frank Parker Stockbridge in the May World's Work. Soon after leaving law school he found that a J. B. Clark was getting mail at nearly every post-office in the country. Sometimes they got his letters and sent them back to the writers.

"I tried lopping off the James and traveling as plain 'Beauchamp Clark,' but my friends insisted upon pronouncing it 'Bo-champ,' or abbreviated it to 'Bo Clark,'" said the speaker, telling me how he made the change. "I thought I would save them trouble by abbreviating it myself, and began to write it 'Champ Clark.' It has been a good asset. It is short enough to be usually printed in full. Look at any list of 'those present' in the papers. Others are mentioned by surnames only, but my name is printed 'Champ Clark.' From this it may be inferred that the speaker is alive to the value of advertising.

CLEAN UP!

Your neighbors are estimating your habits of cleanliness by the outside appearance of your premises. Are you satisfied with your reputation?

A dirty neighborhood is a dangerous neighborhood. If you live in such a neighborhood and cannot clean it up, move away.

Property values are enhanced by cleanliness of surroundings. A wise man will not rent—much less buy—in a dirty neighborhood.

Co-operate with your neighbor to clean up that dirty lot which lies between your home and his.

Dirt and disease go hand in hand. Clean up for your health's sake.

Clean up now. Set a good example for your neighbors to follow.

A dirty home is a place for parasites.

Cleanliness is not next to impossibility.—Chicago Health Bulletin.

FRECKLE-FACE

New Remedy That Removes Freckles or Costs Nothing.

Here's a chance Miss Freckle-Face, to try a new remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles, while if it does give you a clear complexion, the expense is trifling.

Simply get an ounce of ointment—double strength, from any first class druggist and one night's treatment will show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask for the double strength ointment, as this is the only prescription sold under guarantee of money back if it fails to remove freckles.

TEACHERS' SESSION

(Continued from Page 1)

Glee club, Mr. I. J. Vogelgesang, superintendent of schools of Daviess county read a paper on "Consolidation—Why and How?" Following Mr. Vogelgesang's paper the subject was given over to general discussion. Mrs. Cora Early, superintendent of Worth county, discussed "The School as a Social Center," after which there was a general discussion. Mrs. Early emphasized the importance of parents' and mothers' meetings in order that the teacher may come in closer touch with the parents and learn the home conditions of the pupil. Both the association and the class in home making met in the auditorium to listen to Miss Daniels of the University of Missouri on the subject of "Household Sanitation." A summary of the lecture is given in another part of this edition.

At the afternoon session of the teachers' meeting at the Normal Frederick Neudorff, president of the Mercantile association of St. Joseph, delivered an address to the teachers on "What Should the Boy Learn at School—Merchant's View."

George P. Bellows followed Mr. Neudorff and talked of the subject from a farmer's standpoint. The meeting of the association will close this afternoon with the election of officers.

PRINCETON TEAM HERE.

Arrived This Morning and Ready for Game With Normal This Afternoon.

The Princeton high school base ball team arrived in the city this morning for their third annual game with the State Normal team at the Normal athletic park this afternoon at 4:30 o'clock. Last year the teachers defeated the high school lads in a very close and interesting contest, and this afternoon's game promises to be a good one. The Princeton boys will also participate in tomorrow's track and field events. The visitors will line up as follows: H. Lindsay, right field; R. Trainer, pitcher; C. Lathrop, C. F. W. Kesterson, third base; J. Hickman, second base; W. Dennis left field; E. Kelley, short stop; Stocklass, catcher; A. N. Kesterson, first base.

Coach Moore's hopes will bat like this: Taylor, second base; Perry, first base; McKee (captain) catcher; Simpson, left field; Miller right field; Vandersloot, shortstop; McGrew, third base; Richardson, right field; Wilcox, pitcher.

J. L. Coleman and family are moving from their late residence at Ninth and Walnut streets to 307 South Main street.

Penslar Remedies

Penslar Appetizing Tonic

The principle on which the action of a tonic depends is that it stimulates the appetite and increases the digestive power, so that gain in bodily weight is the result. The active constituents of Penslar Appetizing Tonic are those which have been found most effective in increasing the appetite and aiding digestion. It may be depended upon in conditions of lowered vitality from any cause and is especially useful during convalescence or in cases where the vital forces show a lack of tone. Price \$1. Sold only at

Elm Grove School Closes.

Miss Stella Payne, who has been teaching the Elm Grove school, north of the city, went to her home at Earlham, Ia., Friday. The pupils of this school gave a nice program of recitations, exercises, dialogues and songs Thursday afternoon before the patrons of the school, who surprised the teacher and her pupils at the noon hour by coming with well filled baskets and spread a regular banquet. After the program Miss Payne awarded the prizes she had offered to those who were neither absent or tardy during the year. Sadie Aley of the fifth grade and Gertrude Garrett of the first grade were the winners. Another prize offered for the best spelling grade since Christmas was won by Harry Morse, a second grade boy, whose average was 98. Helen Kemp had won the prize for the best spelling grade for the term closing at Christmas. She is a fourth grade pupil and her average was 99. She was a close second to the winner of the second term offer, her grade being 97.

FOR FALLING HAIR.

You Cannot Lose When You Use This Remedy.

We promise you if your hair is falling out, and you have not let it go too far, you can prevent baldness and get a new growth of hair, if you will use Rexall "33" Hair Tonic, with persistency and regularity, for a reasonable length of time.

It is a scientific, cleansing, antiseptic, germicidal preparation. It destroys microbes, stimulates good circulation around the hair roots, and thus promotes hair nourishment, removes dandruff and restores hair health. It is as pleasant to use as pure water, and is delicately perfumed. It is a real toilet necessity.

We want you to try Rexall "33" Hair Tonic with our promise that it will cost you nothing unless you are perfectly satisfied with its use. It comes in two sizes, prices 50c. and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store. The Orear-Henry Drug Co., 113 North Main street.

Dr. Charles Torrance of Gibbons, Neb., who was operated upon at St. Francis hospital Thursday for appendicitis, is getting along nicely. Mr. Torrance had come to Maryville for a visit with his mother, Mrs. Hosea Torrance, when he was taken ill.

ONLY DEATH CAN REMOVE HIM.

If Roosevelt Gets Third Term, so Says President Taft.

Springfield, Mass., April 25.—In a voice choking with emotion, Taft concluded his speech with a solemn warning to the people of the United States that in Roosevelt they were in "danger of a dictator who, once he received a third term, would cling like a leech to the White House and never leave it until death removed him."

"I am sorry to say it," said President Taft, "but Mr. Roosevelt is a man of strong personality. He is a leader of men, and is a man of much strength of purpose, and has so little regard for the constitution, of legal procedure and the courts that he is not to be trusted with the presidency. I am sorry to say it, but I believe it in my soul, and must state my convictions."

Final Plea for Richeson.

Boston, April 26.—A final attempt to save the life of Rev. V. T. Richeson, convicted of the murder of Avis Linnell, a choir singer, was made today, when the ex-pastor's counsel, William A. Morse and John L. Lee, personally pleaded the murderer's case before Governor Foss. The attorneys hoped to persuade the governor to refer the petition for the commutation of the minister's death sentence to the governor's council.

Farm College is Crowded.

Columbia, Mo., April 26.—The enrollment of students in the college of agriculture now is 794, almost four times that of four years ago. The record shows a decided increase in interest in agricultural education in this state. The facilities of the college are taxed to the utmost.

A MEASURE OF MERIT.

Maryville Citizens Should Weigh Well
This Evidence.

Proof of merit lies in the evidence.
Convincing evidence in Maryville.
Is not the testimony of strangers,
But the endorsement of Maryville
people.

That's the kind of proof given here—
The statement of a Maryville citizen.
J. A. Murphy, 845 East Fourth
street, Maryville, Mo., says: "I suf-
fered considerably from kidney trou-
ble and lumbago. I got up in the
morning so stiff and lame with such
a dull aching across my loins that I
could hardly do my work. I suffered
a great deal from kidney trouble,
whenever I caught cold and the kid-
ney secretions were dark and filled
with sediment. My health failed and
I was miserable when I read about
Doan's Kidney Pills. I got a box of
this remedy at Love's drug store (now
Love & Gaugh's drug store), and it
went at once to the seat of my trouble
and corrected it."

For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo,
New York, sole agents for the United
States.
Remember the name—Doan's—and
take no other.

YOUR GRAY HAIRS QUICKLY VANISH

A Harmless Remedy, Made
from Garden Sage, Restores
Color to Gray Hair.

A feeling of sadness accompanies the
discovery of the first gray hairs which
unfortunately are looked upon as heralds
of advancing age. Gray hair, however
handsome it may be, makes a person
look old. We all know the advantages
of being young. Aside from the good
impression a youthful appearance makes
on others, simply knowing that you are
"looking fit" gives one courage to
undertake and accomplish things. So
why suffer the handicap of looking old
on account of gray hairs, when a simple
remedy will give your hair youthful
color and beauty in a few days' time?

Most people know that common gar-
den sage acts as a color restorer and
scalp tonic as well. Our grandmothers
used a "Sage Tea" for keeping their
hair dark, soft and luxuriant. In
Wyeth's Sage and Sulphur Hair Remedy
we have an ideal preparation of Sage,
combined with Sulphur and other valu-
able remedies for dandruff, itching scalp
and thin, weak hair that is split at the
ends or constantly coming out. A few
applications of this valuable remedy
will bring back the color, and in a short
time it will remove every trace of dan-
druff and greatly improve the growth
and appearance of the hair.

Get a fifty cent bottle from your
druggist today, and notice the difference
in your hair after a few days' treat-
ment. All druggists sell it, under guar-
antee that the money will be refunded if
the remedy is not exactly as represented.

"MONEY TRUST" INQUIRY CERTAIN

House Empowers Banking Committee
to Investigate.

WILL GO INTO EVERY DETAIL

Pujo Resolution Passed by Vote of
241 to 15—Attorneys Will Ar-
range for Immediate
Opening.

Washington, April 25.—The house
empowered its banking and currency
committee to make a sweeping in-
vestigation of the financial interests
of the country, their relations to in-
dustrial, transportation and banking
interests, and the extent to which
their interrelations may constitute a
"money trust."

By a vote of 241 to 15, the Pujo
resolution, embracing practically all
the allegations and authority of the
original Henry "money trust" resolu-
tion, was passed by the house.

Those who voted against the resolu-
tion were:

Republicans—Austin, Tennessee;
Caldwell, New York; Cannon, Illinois;
Dalzell, Pennsylvania; Draper, New
York; Henry, Higgins and Tilson,
Connecticut; Howell, Utah; Mahoy,
New York and Sulloway, New Hamp-
shire.

Democrats—Representatives Brant-
ley, Georgia; Bulkeley and Whitacre,
Ohio; Evans, Illinois.

Attorneys Notified.

Representative Pujo, chairman of
the banking and currency committee,
announced late in the day that he had
telegraphed to Samuel Untermyer of
New York and Edgar H. Farrar of
New Orleans, the attorneys who are
to conduct the investigation, asking
them to meet the committee at once.
The attorneys will be asked to ar-
range for an opening of the "money
trust" inquiry.

Representative Mann charged dur-
ing the debate that "Mr. Untermyer
of New York is proposing to milk the
money powers and the corporations
that he is seeking to investigate."

Mann Makes Charges.
"This is one of those 'come and see
me' resolutions," said Mr. Mann. "We
have an important political campaign
ahead of us. There is need for
money. They say to a corporation,
'come and show us everything you
have ever done or else put up the
stuff.'"

"They say: 'If you dare make a
movement in favor of our political op-
ponents, we will drag you up before
the bar of our committee.' No such
gross abuse was ever in the history
of the government."

Chairman Henry of the rules com-
mittee denied Mr. Mann's charges.
He said the house had already passed
a presidential campaign fund publicity
bill, which would prevent any "milking
of the corporations."

Chairman Pujo, of the banking and
currency committee, said that wider
powers of investigation were de-
manded by the lawyers who have been
engaged by the committee.

PLAN THIRD HAGUE CONFERENCE

American Society of International
Law Devotes Entire Session to
Consideration of Program.

Washington, April 25.—The sixth
annual meeting of the American So-
ciety of International Law opened last
evening in the Hall of the Americas
of the Pan-American Union. The so-
ciety was organized at Lake Mohonk,
New York, Jan. 13, 1906, and its ob-
ject is "to foster the study of inter-
national law and promote the estab-
lishment of international relations on
the basis of law and justice." This
year the society decided to devote
its entire session to the consideration
of the program, organization and pro-
cedure for the third Hague conference.
The Hague conference of 1907
recommended to the powers the hold-
ing of a third peace conference which
might take place within a period sim-
ilar to that which elapsed between the
first and second conference—eight
years—and attention was drawn to
the necessity of preparing the labors
of the third conference sufficiently in
advance to have its deliberations "fol-
low their course with the requisite
authority and speed." The American
Society of International Law is the
first organization to take up this
work.

The session was opened by an ad-
dress by Senator Root, president of
the society. Hon. Pasquale Fiore,
senator of Italy and professor of in-
ternational law in the University of
Naples, delivered an address on
"Some Considerations on the Past,
Present and Future of International
Law," and Oscar S. Strauss, formerly
secretary of commerce and labor and
American ambassador to Turkey,
spoke on "The American Diplomacy
of Humanity."

Today the sessions will be resumed
by the reading of general papers on
the program of the third Hague con-
ference by Alejandro Alvarez, juris-
consult of the ministry of foreign af-
fairs of Chile; Joaquin D. Casasus,
formerly Mexican ambassador to the
United States; Luis Anderson, for-
merly minister of foreign affairs of
Costa Rica, and James Brown Scott,
technical delegate of the United
States to the second peace conference.

STOPS SCALP ITCH.

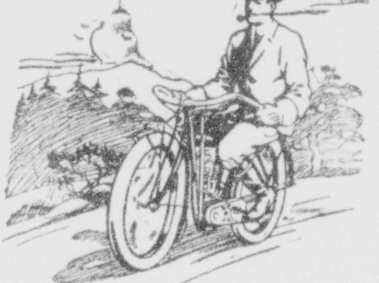

Dandruff and Every Form of Scalp
Disease Cured Quickly by Zemo.

It is simply wonderful how Zemo
goes after dandruff. You rub a little
of it in with tips of the fingers. It
gets right down into the glands, stimu-
lates them, stops the itch, and makes
the head feel fine. No, it isn't sticky!
Zemo is a fine, clear, vanishing liq-
uid. You don't have to even wash
your hands after using Zemo. And
what a wonder it is for eczema, rash,
pimples and all skin afflictions. A
25-cent trial bottle at Love & Gaugh's
drug store is guaranteed to stop any
skin irritation.

Zemo is prepared by E. W. Rose
Medicine Co., St. Louis, Mo., and is
regularly sold by druggists at \$1 a
bottle. But to prove what it will do
at trifling expense, Zemo is now put
up in 25-cent trial bottles.
